Biosketch Victor Aboyans, MD, PhD, FESC, FAHA

Pr. Victor Aboyans is the Head of the Department of Cardiology at the Dupuytren University Hospital in Limoges, France, since 2012.

After his years of medical school at the University of Nice, and residency in the Limoges university, he has been graduated (MD) in 1996. He worked 15 years as an assistant and then as a senior physician in the Department of Cardiovascular Surgery where he developed his skills of peri-operative management after cardiac surgery as well as the medical management and imaging of patients with peripheral arterial diseases. In parallel he obtained a PhD in Public Health after a thesis on PAD epidemiology at Toulouse University, and prolonged his works by a one-year research stay at the University of California, San Diego. He has been nominated as Professor in Cardiology in 2011.

His research is mostly based on epidemiology of cardiovascular diseases and he is currently a senior member of an INSERM-labelled research team oriented in the epidemiology in tropical countries. His clinical research is mostly oriented to the management of vascular diseases and cardiac risk stratification through cardiac and vascular ultrasound markers. He authored more than 200 pubmed-referenced papers.

He is highly invested in the activities of the European Society of Cardiology. He has been the co-chair of the 2014 ESC guidelines on the management of aortic diseases, and he recently chaired the 2017 ESC guidelines on management of peripheral arterial diseases. He is the upcoming chair of the ESC working group of Aorta & Peripheral Vascular Diseases, starting in September 2018.

Cher Professeur,
Cher Docteur,

Nous avons l'immense plaisir de vous annoncer que le Professeur Victor Aboyans, Cardiologue au CHU de Limoges en France, nous fera l'honneur de sa visite en Belgique et au Luxembourg du 15 au 17 mai prochains

Durant son séjour, une réunion interactive sera organisée sur le thème:

**“Modern Management of Stable CAD and PAD:
from last guidelines to novel findings”**

L'exposé sera suivi d'une discussion et d'une session de questions/réponses et aura lieu:

Mercredi 15 mai 2019 à 19h30
Hôtel Le Royal - Salon “Les Roses”
12 Boulevard Royal
L-2449 Luxembourg

Programme Scientifique :

- 19:30 - 20:00 Accueil et introduction
DR Cristiana Banu
Présidente de la société Luxembourgeoise de Cardiologie
- 20:00 – 22:00 «Modern Management of Stable CAD and PAD:
from last guidelines to novel findings»
Prof. Dr. Victor Aboyans
CHU de Limoges, Département de Cardiologie
- 22:00 – 22:30 Q & A
22:30 Discussion scientifique durant le dîner

Merci de bien vouloir adresser vos questions/cas pour le Pr Aboyans à Bernadette Dubois.

Afin d'organiser au mieux cet événement, merci de bien vouloir confirmer votre présence pour le jeudi 9 mai à Bernadette Dubois : 00352 621 311 444 ou via mail bernadette.dubois@bayer.com.

Nous vous remercions pour votre confiance et espérons vous rencontrer lors de cette réunion scientifique.

Recevez nos meilleures salutations,

Hilde Vangenechten
